# What is Swisspay?

The continual changes in the digital revolution make it increasingly important every day to stay on top of the new requirements that we must meet in a world dominated by innovation and scientific progress. These changes and advancements make it imperative to take the next step in order to capitalize on the opportunities that each new innovation, discovery, or progress in any field of knowledge brings.

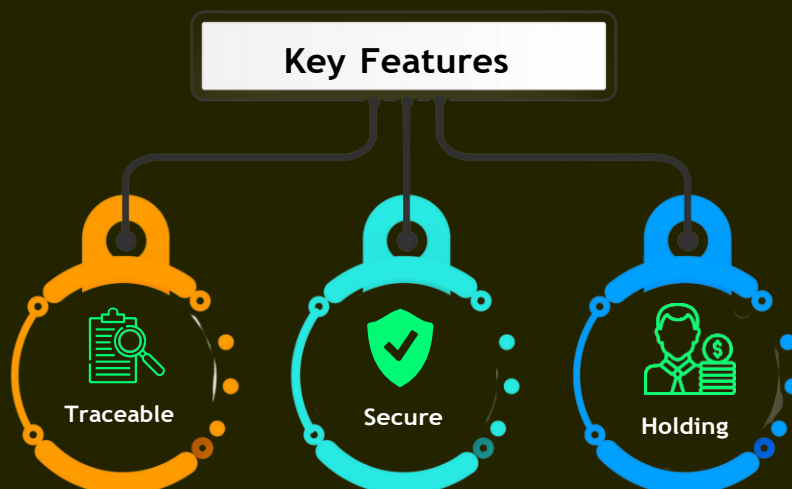

Swisspay is all in one decentralized cryptocurrency platform of the modern world based on the sovereign blockchain. Swisspay is designed as a high-performance to provide many services on 1 platform. Swisspay will be a whole ecosystem that will provide features like Staking, swap, Farming, and Liquidity provider on a single platform.

Swisspay is an emerging platform that will be on the Binance blockchain and has features of transparency and security, which we believe is crucial for long-term feasibility and decentralization. Swisspay is a community-oriented platform that provides Binance blockchain integration to people where they can pay and invest.

Holding will allow users to earn yield in a form of Swisspay tokens. We are revolutionizing the market with a more open, accessible, and fair global financial system with a decentralized Binance-powered crypto swapping. Unlike, other conventional platforms, our wallet allows investors to generate more value for users' crypto-assets. Swisspay is also going to launch its coin to raise capital for investment.

It will increase the efficiency and availability of cryptocurrency to everyone. It will create an advanced economic infrastructure consisting of a payment system, with ecommerce platform and Holding facility for investors in its system and quickly become an unstoppable economic cornerstone to the world. The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered, and enabled. In short, Swisspay provides many facilities under one umbrella.

The Swisspay eCommerce platform allows anybody to buy/sell things and pay using Swisspay cryptocurrency, addressing existing currency conversion rate inconsistencies. We want to develop a web-based platform that will allow anybody to shop using our native coin from anywhere.

# VISION

# VISION

Our vision is to be the best-known payment platform on the Binance blockchain. we want to make a system that revolves around NFTs on Binance. This means future of this projects, marketplaces, and real-life implementations. We strive to be bigger than a brand. We want to utilize the capabilities of Binance, present, and future, to their maximum potential. we want to create an ecosystem to provide opportunities to everyone to improve their financial situaation without any discrimination.

Swisspay Vision is Encapsulated With Three Main Components;

## Community-Focused

More focused on supporting and caring for community

## Innovation

To be the world's most crypto-centric platform

## Wealth-Building

Embarking new wealth raising strategies worldwide

# OUR MISSION

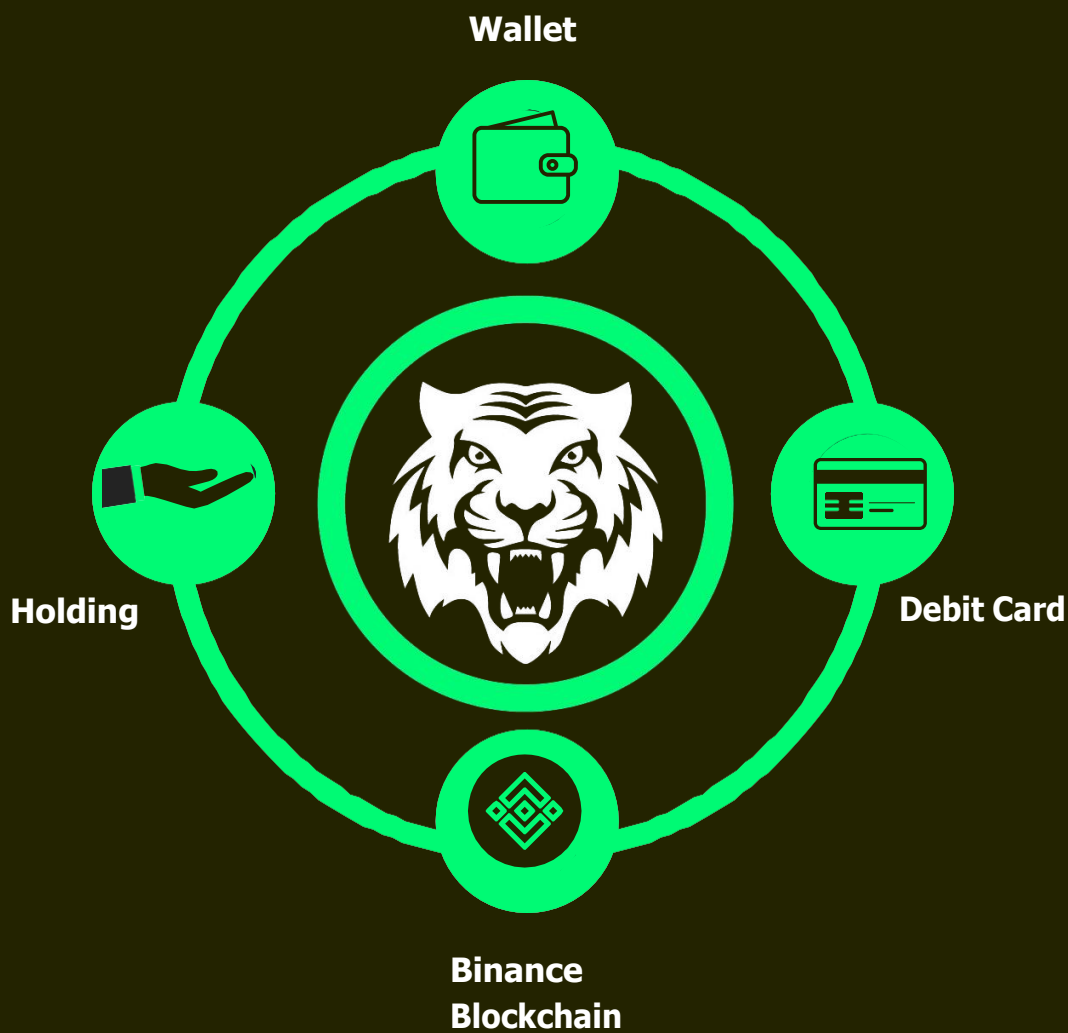

Our mission is to take "Swisspay" to new heights by providing customers with an innovative, user-friendly, one-stop-shop platform to give everyone in the world an equal chance to manage and improve their financial security. Swisspay's future and mission are to integrate the NFT world and the digital space unlimited resource of high-end, exclusive, futuristic, sophisticated space to live and interact in for its Swisspay community and society in the NFT universe. With our long-term-oriented projects (NFT, Digital Assets, etc.). We will focus to keep our investors on board as long as possible by offering exclusive options.

- Make the world a better place by providing financial independence to people.
- Our mission includes the creation of a next-generation complete all-in-one platform and giving every person in the world an equal chance to manage and improve their financial security by using the Swisspay.
- Implementing innovative projects.
- Operate as a community-focused and community-driven digital asset, fully decentralized in every sense of the word.
- Providing a Forum to bring ease in trading and tracking and to contact with Swisspay.

# Ecosystem

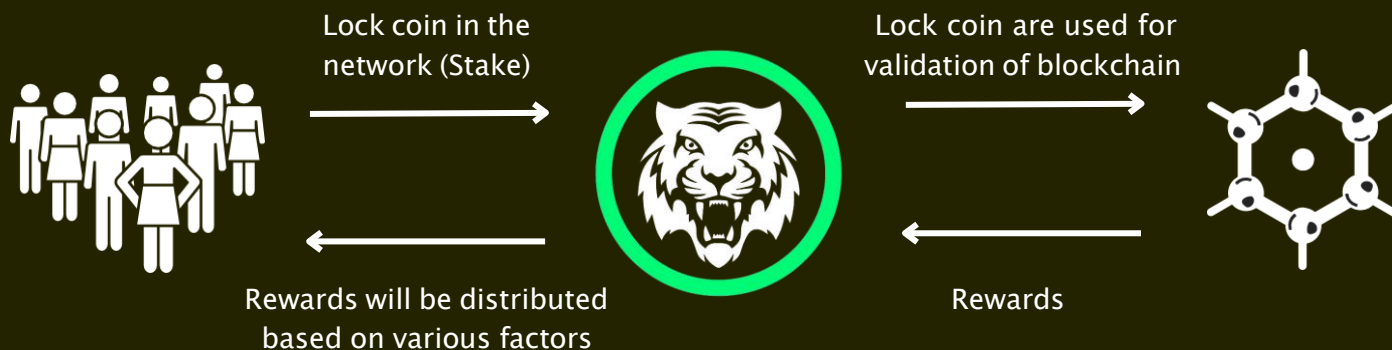

# Swisspay Holding

Swisspay works on the Binance blockchain, which is eco-friendly, working on a proof of Hold. In addition to being the largest crypto exchange by trading volume, it offers exemplary holding services. holding ensures users' funds are safe by leveraging effective security measures and providing Secure Asset Fund for Users (SAFU). Our holding method at the time of writing is arguably one of the safest and eco-friendliest methods (for cryptocurrency) to earn passive income. The platform stores all staked token using a secure wallet and a double-checking system.

Swisspay holding is quickly becoming a practice of gaining passive income by merely storing or locking funds in a wallet as more individuals, including institutional investors understand the crypto market's lucrativeness.

Since holding cryptocurrencies necessitates certain technological crypto know-how and compliance criteria, Swisspay holding platforms are useful for allowing investors, including those lacking technical knowledge of cryptocurrencies, to hold proof of stake (PoS) token and receive rewards. The holding network lends you their professional skills and authenticates holds on your behalf for a small percentage of your prizes, allowing you to receive submissive profits. holding platforms that enable investors to collect holding incentives have sprung up in response to the rapid growth in crypto holding . If you're interested in earning a passive income by holding , this is the place to be.

# Benefits of Holding

## NO HARDWARE IS REQUIRED

Unlike proof of work, there is no need for specific equipment or hardware for crypto holding. This is proof that Holding works without the need for any special equipment. The only requirement is to Hold the TOKENS for an interval of time by the holders on any exchange or dapp.

## PASSIVE INCOME

Holders earn incentives by Holding and controlling their digital wealth. The incentive for keeping is passive income for the recipient.

## SCALABILITY

Scalability is a term that is frequently used in the Blockchain ecosystem. It refers to a computational process's potential that is used to generate in a variety of ways. Proof of Hold protocols, as shown by Swisspay in higher transaction outputs and lower fees, makes for greater scalability.

## ECO-FRIENDLIER

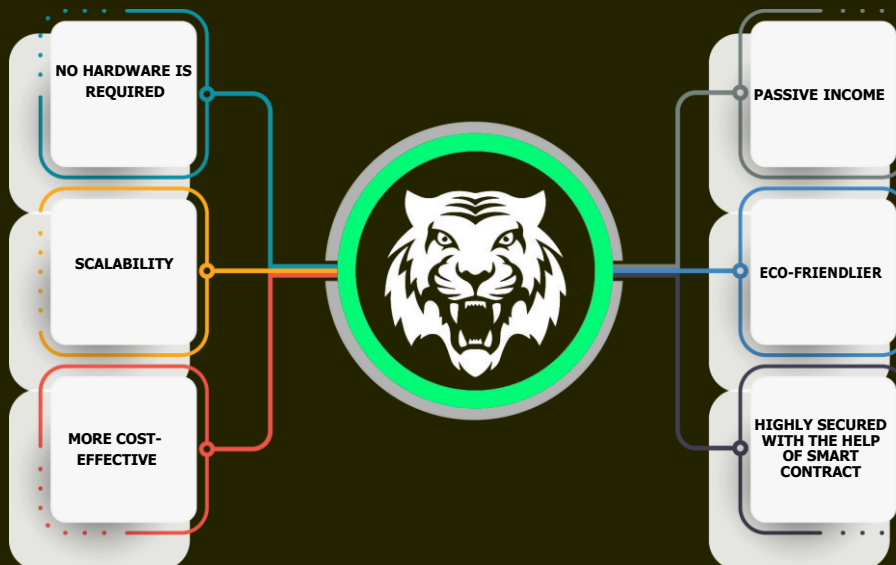

One of the major benefits of the Holding token is that it does not need a continuous supply of energy to validate the transaction. As a result, it is environmentally friendly.

## MORE COST-EFFECTIVE

Holding on blockchains are usually low-cost and low-energy systems that don't require any special or expensive hardware. It is less expensive and less harmful to the environment than proof-of-work chains. Holders can earn more passive income by using the Swisspay platform.

## SECURED BY SMART CONTRACT

The biggest issue in the modern world is security and privacy and Swisspay provides a swift and stable portal that is backed by the Swisspay ecosystem, making it superior to others. Swisspay is offering a highly secure and fast platform to users for holding crypto.

# Liquidity

Liquidity is extremely important in the cryptocurrency industry as it can determine how quickly assets can be traded at their current market value. This is paramount in a highly volatile trading environment such as digital asset markets where gains and losses can hinge on available liquidity.

Liquidity indicates the presence of volatility in the market and it is responsible for the spikes in crypto prices. Liquidity is essential for cryptocurrencies that are tradable. A high level of liquidity indicates that the market is stable enough with a few variations in price.

In a liquid market, it is easier to buy or sell cryptocurrencies because buy or sell orders are filled more quickly due to the larger number of market participants. Given the fast-paced existence of the cryptocurrency markets, this essentially ensures that a transaction can be entered or exited at any time.

Swisspay based on automatic liquidity system in which 5% of the token and makes it easy to buy or sell the token or converted it into fiat money in seconds. Swisspay provides traders across the globe with not only phenomenal liquidity but also top-notch security and innovative products. Swisspay mission is to uphold the original crypto spirits and make the world a better place by helping everyone trade more and trade better.

# Burning

Burns can be critical at times, but they aren't always. A continuous burn on a single protocol may be practical in the early days, but it means that the burn cannot be controlled or limited in any way. Burns that are controlled by the team and elevated depending on achievements help to keep the community updated and rewarded. 85% of total supply will be burnt and it will make the token scars that will increase the positive pressure on the price increase.

The buy-back and burn's circumstances and proportions will be monitored. Swisspay seeks to carry out a long-term burn plan that is both beneficial and enjoyable for those who take part. Additionally, manual burns help to reward and enlighten the community. The circumstances and volumes of the manual burn are made public and monitored. Our website readout now displays burns, allowing for greater transparency in assessing the current circulating supply at any given time.

# Swisspay Wallet

The Swisspay wallet places a high premium on enabling users to manage their tokens and, more specifically, to integrate subtly with the ecosystem. They can check their balance and send and receive tokens.

The wallet provides users with access to decentralized exchanges, allowing them to swiftly and effectively convert their tokens. The Swisspay Wallet is instantaneous, secure, and will typically have a cheaper transaction fee than others. Users can primarily use their wallet to give and secretly vote for the organization. A user can stake, hold, and trade using the Swisspay Wallet, which demonstrates that the Swisspay Wallet is, for the most part, a wallet that supports a large number of chains.

Extremely secure, it's simply a matter of keeping your key secret and demonstrating how the balance can be checked and tokens can be subtly given and received. It allows for quick cross-border transactions, demonstrating how the wallet's private keys are kept on the user's device and are protected invisibly by secure enclave and biometric authentication technologies. These are barrier-free, as there are no middlemen involved, showcasing how the wallet connects users to decentralized exchanges, allowing them to quickly convert their tokens in a meaningful way.

## Key Features

- Dashboard with deposit/withdrawl charts
- Fully responsive and dynamic design
- Dashboard history chart
- Real time charts
- Deposit
- Withdrawals
- Wallet activity transaction
- Generate wallet address
- User profile
- Secured withdrawal using queue
- All files are well commented
- Good documentation
- Free updates
- Customer support

# Debit Card

Instantly load your card with the our token. Fund it. Spend It. Anytime, anywhere. Truly borderless, debit cards let individuals make online or in-person purchases or withdraw cash from ATMs using different coins, even if the vendors and ATMs don't accept cryptocurrency. Instead of exchanging coins into local currencies, cardholders preload their debit card with a set amount of cryptocurrency which is then automatically converted at the time of purchase. Swisspay cardholders spend their cryptocurrency anywhere Visa is accepted. Its support for multiple currencies, easy currency conversion, and top-notch security is why we chose it as the best crypto debit card overall .

## Benefits

- Can be used where prepaid card is accepted.
- Pay using multiple cryptocurrency wallets.
- Multiple security features.

# Swisspay Payment System

Swisspay is a pivotal product of our ecosystem which has its payment widget and wallet integrated with it. Merchants and SME's are able to integrate the payment gateway with their ecosystem and receive amounts in Swisspay wallet.

## Swisspay Payment System

Swisspay will be a cryptocurrency payment system that offers its users the ability to shop, spend, deposit, and withdrawal via industry-standard sort code and account number. The Platform is powered by its same name currency “ Swisspay Platform will be used for products and services including buying tickets, online shipping, we also have payment gateway system which will be used by services or buying products on swisspay platform.

## Benefits

- ♦ Faster and cheaper checkouts.
- ♦ Multi-currency payment options.
- ♦ Secure with security built-in mind.

## Swisspay E-commerce platform

Swisspay eCommerce platform allows anyone to buy/sell goods and pay with Swisspay cryptocurrency, address the current inadequacies of currency exchange rate differences between countries. We are going to launch a web base platform which allow everyone to shop from anywhere using our native cryptocurrency.

We want to make online shopping easier for consumers by allowing them to shop across a unified shopping Marketplace, where they can get high-quality products in a transparent, seamless manner at low prices while using digital assets of their choice, without sacrificing quality, security, or authenticity.

# How to Buy \$SWISSPAY?

## 01 You can purchase BNB on Binance, Crypto.com or another exchange.

Create a Trust wallet (can be downloaded on app store). Then send your BNB from your exchange of choice to your Trust wallet. U can Start from 5\$.

## 02 Swap BNB for Smart Chain BNB

This can easily be done when viewing the BNB balance in your Trust wallet.

## 03 Swap BNB for MVN on PancakeSwap

Connect your Trust wallet to PancakeSwap, then paste our contract address into the token field to swap \$BNB for \$SWISSPAY.

# Why Choose Swisspay?

## MARKETING & HIGH REACH

We want to focus a lot on marketing because this is the most important thing to keep a project alive. We say this because we have years of experience in the E-commerce business and have generated over 30 million dollars. For this, we will be putting a large part of our wallet into marketing which will take the our project to another level.

## Low GAS FEES

The fees associated with Swisspay token transactions are far less than those associated with debit, credit cards as well as wire transfers, and BACS payments. Swisspay token is a secure and private cryptocurrency that keeps the investor's assets anonymous without compromising security.

## EASE OF USE

The fact that Swisspay is simple to use contributes to its worth. You will need a smart device and an internet connection to become an investor right away.

## TRUST

It is hard to overestimate the value of trust in the cryptocurrency market. That entails complete transparency in terms of community support and development and terms of any security-related initiatives. Examples include high-quality audits of the Binance blockchain code to decrease the possibility of harmful activity significantly.

# Why Choose Swisspay?

## LONGEVITY & REWARD

Swisspay is committed to the game for the long run. The decentralized community is promoting the long-term development of the ecosystem, which will result in real-world applications, more incentives, and increased popularity in the long run.

## GLOBAL Impact

We want everyone throughout the world to no longer have to deal with gas fees when they want to buy an NFT from us and also we want everyone throughout the world to be connected with our Marketplace.

## Community-Focused

Community is the number one value of the Swisspay ecosystem. In the beginning, we asked if a project could succeed on the back of a decentralized, community effort. Swisspay prevailed due to the strength of its community members and investors. Our collaborative, Like-minded community is the bedrock of the project.

## Traceability

Swisspay is trace-able where we can trace the creator and previous owners. There is a code behind it and it is traceable. It is traceable and may be used to identify the creator, as well as provide a list of the first and last Holder purchases.
